

Which California Trace Product is Right for My Horse?

Our **California Trace** original formula is perfect for pleasure horses on forage based diets. The balanced trace minerals, biotin, essential amino acids and vitamins compliment all types of hay and pasture. California Trace supports healthy hoof growth, beautiful coats and improved immunity. It is cost effective and easy to use for everyday feeding.

California Trace PLUS is the ideal product for horses in training and competition.

Enhanced levels of trace minerals, vitamin E, and essential amino acids promote a lustrous coat, healthy hooves that hold up to the demands of training, and a strong immune system. The natural live yeast culture supports the growth of healthy gut bacteria and reduces the digestive disturbances associated with stress, training, and high performance activities.

No iron is added to any California Trace product. Order online or find a retailer at www.CaliforniaTrace.com

PRODUCT GUIDE

California Trace

Equine Trace Mineral & Vitamin Supplement

Based on a comprehensive study of forage and hay, California Trace is formulated to supply the most commonly deficient minerals: Copper, Zinc, and Selenium. Due to the high iron content found in most forages, no iron is added to our product. California Trace is made with high quality, bio-available ingredients for enhanced absorption. It may be fed with grain, beet pulp, or pellets.

GUARANTEED ANALYSIS PER 2 OUNCE (2 scoop) SERVING
